

Property Review Group Decision

BI-DEN-37-1 Attenborough, Land

Dear Consultee

In 2005 a consultation was undertaken on the proposed release of this site, adjacent the Trent Junction to Nottingham railway line.

Derbyshire County Council expressed an objection to the release of the site. There were no other objections. Network Rail and Derbyshire County Council noted a previous proposal to construct a new road and a road bridge over the line, with the possible closure of level crossings. The proposal was not progressed and not incorporated into the resignalling of the line. It was not included in Derbyshire's provisional Local Transport Plan. Derbyshire County Council subsequently withdrew their objection.

Following review, Property Review Group agreed the site should be released for open market disposal.

Kind regards
